FIGHT THE FLU
PLAN AHEAD AND START FLU PREVENTION EARLY

SCHEDULE FLU VACCINATIONS AT YOUR PLACE OF BUSINESS
Providing your employees with the opportunity to receive the flu vaccine at your workplace can benefit everyone by:
• Reducing workplace absenteeism
• Decreasing utilization of personal healthcare insurance
• Providing protection from the flu virus up to one year after the vaccine is administered

Tri-State Occupational Health can assist you – call and schedule a Flu vaccine clinic at your place of business today.

Vaccine clinics will be offered from October 6 through November 26.

SAME PRICE AS LAST YEAR!
This year’s Influenza Vaccine cost will be $28 per employee. No onsite fees! Guaranteed service by the area’s most highly trained, efficient and experienced staff.

To inquire about our 2014 on-site flu vaccine clinics or to schedule at your location, please contact Jody Winchell at Tri-State Occupational Health by emailing jwinchell@mahealthcare.com or by calling 563-584-4604.

FIGHT THE FLU

Tri-State Occupational Health Influenza Vaccine Clinic Information:

- TSOH will be offering on-site flu vaccine clinics from October 6 through November 26.
- Cost will be $28.00 per vaccine/employee with no onsite fees.
- There is a minimum of 15 vaccines needed to schedule a work site clinic (those who fall short of this will be charged for 15 vaccines).
- TSOH does not offer vaccinations to employees under the age of 18 years.
- You may opt to cover the costs of the flu vaccine for your employees or to provide the clinic on-site but have the employees cover their own expenses. In either case, TSOH will submit all billing directly through your company. TSOH will not collect money at the work site visit or directly from employees.
- If your employees are members of Medical Associates Health Choices or HMO, the vaccine may be covered under your health plan and we may have the capability of billing that insurance directly.

Your checklist for scheduling an on-site flu vaccine clinic:

- Provide TSOH with the number of employees participating in your work site vaccine clinic (an accurate count will be needed two days prior to the scheduled clinic date).
- Plan for approximately 40 vaccines being given per 1 hour, establishing a start and stop time for the work site clinic.
- Plan for TSOH staff arrival 15 minutes early to setup and prepare vaccines.
- Remind employees to wear short-sleeved or loose fitting shirts the day of the clinic to help facilitate a more timely process as the vaccine is administered in the upper arm.
- Provide the 2014 Influenza Vaccine Information Statement at http://www.cdc.gov/vaccines/hcp/vis/vis-statements/flu.html to all of your participating employees.
- Encourage employees with specific questions on influenza and vaccination to call the Centers for Disease Control and Prevention (CDC) at 1-800-232-4636 or visit www.cdc.gov or check with their primary care provider.
- Post employee poster and Vaccine Information Statement (VIS) before clinic.

Thank you for choosing Tri-State Occupational Health for your workplace healthcare provider!
